Sun Life Hong Kong Limited
(Incorporated in Bermuda with limited liability)

Wouldn't it be great if

you could focus on cancer treatment and recovery without worrying about the financial burden

Cancer is a leading cause of death in Hong Kong, accounting for nearly 1 in 3 deaths. It is estimated that approximately 1 in 4 men and 1 in 5 women will develop cancer before the age of 75¹. In fact, at Sun Life, cancer accounts for nearly 50% of the total number of death claims and 80% of critical illness claims². Unfortunately, cancer treatment is costly and can adversely affect the family's financial stability. That is why it is crucial to secure suitable protection to cover your health and wealth when the storm comes.

This is where Sun Life steps in – your trusted partner for life's journey and achieving life's dreams. **SunHealth Cancer Shield** provides financial support should you suffer from cancer, giving you peace of mind about your finances so that you can focus on treatment and recovery.

How can SunHealth Cancer Shield help you?

SunHealth Cancer Shield is a cancer insurance plan that focuses on covering Cancer Condition and Early Malignancies and Carcinoma-in-situ Conditions by providing a lump-sum payment upon diagnosis of a covered illness. To help determine the most effective cancer treatment, the plan also covers a Genetic Profiling Test upon diagnosis of Cancer Condition.

We understand that recovery is a lengthy process that can keep you from returning to work, leading to a loss of income. That's why **SunHealth Cancer Shield** also provides a monthly benefit for 24 months consecutively upon the diagnosis of Cancer Condition to support your living, helping to ease your financial burden so that you can devote more time to your top priorities – your health and your family.

Key Features

-  1. Protecting you with a lump-sum pay-out under the Major Cancer Benefit
-  2. Supporting you with the Monthly Living Benefit to ease financial worries
-  3. Extra coverage with the Early Malignancies and Carcinoma-in-situ Benefit³
-  4. Genetic Profiling Test Benefit⁴ helps identify the best targeted treatment for you
-  5. Easy Application Process

Remarks:

3. The Early Malignancies and Carcinoma-in-situ Benefit can be claimed only once.
4. The Genetic Profiling Test Benefit pays for 1 Genetic Profiling Test up to the maximum benefit limit to cover the expenses of the test. Such test must be deemed appropriate by the insured's treating oncologist and approved by Sun Life Hong Kong Limited.

1. Protecting you with a lump-sum pay-out under the Major Cancer Benefit

In the unfortunate event that the insured, who is the person protected under the policy, is diagnosed with Cancer Condition, the Major Cancer Benefit equivalent to 100% of the Sum Assured⁵ of the policy will be paid in a lump-sum to help the insured access state-of-the-art medical care. Besides paying for your living expenses, you can also use the money for home nursing, child care, or any other purposes as you want.

Once the Major Cancer Benefit is paid, the future premiums will cease to be payable. Nevertheless, the Monthly Living Benefit, Genetic Profiling Test Benefit, and Death Benefit will continue to cover you.

2. Supporting you with the Monthly Living Benefit to ease financial worries

Cancer recovery is a long and costly journey, and returning to work may become less of a priority as you focus on nurturing your health. To help offset any reduced income, the Monthly Living Benefit pays an amount of HKD10,000/USD1,250 (for Plan 1) or HKD20,000/USD2,500 (for Plan 2) per month upon the diagnosis of Cancer Condition to help subsidize your living expenses and ease the financial burden on you and your family.

This amount will be paid for 24 consecutive months on top of the lump-sum amount paid under the Major Cancer Benefit. If the insured unfortunately passes away before the last monthly benefit is paid, the remaining monthly benefit will be paid in a lump-sum to the beneficiary(ies), supporting general living expenses during challenging times. Once the Monthly Living Benefit is paid up, the policy will be terminated.

Remark:

5. 100% of the Sum Assured is equal to HKD1,000,000/USD125,000 (for Plan 1) or HKD2,000,000/USD250,000 (for Plan 2).

3. Extra coverage with the Early Malignancies and Carcinoma-in-situ Benefit

We know that early detection and treatment can boost your chances of a full recovery. That's why we offer the Early Malignancies and Carcinoma-in-situ Benefit for Early Malignancies and Carcinoma-in-situ Conditions. This benefit provides an extra 20% of the Sum Assured⁶ to help you start your healing journey as early as possible.

This benefit will not interrupt your Major Cancer Benefit protection. This means that after claiming for Early Malignancies and Carcinoma-in-situ Conditions, you can still make a claim for Cancer Condition later on if you are diagnosed as suffering from such condition. That way, you stay protected even if life takes an unexpected turn.

4. Genetic Profiling Test Benefit helps identify the best targeted treatment for you

Determining the best course of treatment is the key to recovery. Thanks to the advanced medical technology, the Genetic Profiling Test makes personalized treatment possible by identifying the genomic alterations driving your cancer, helping your doctor to find out the target therapy treatment approaches that benefit you the most. This way, it will do much less damage to your healthy cells than standard chemotherapy.

Genetic Profiling Test Benefit provides reimbursement for the actual cost of 1 Genetic Profiling Test in the event that the insured is diagnosed with Cancer Condition. The insured is entitled to a maximum benefit limit of HKD50,000/USD6,250 to help identify the best targeted treatment while minimizing the side effects, leading you to a more promising recovery.

5. Easy application process

Applying for **SunHealth Cancer Shield** is simple and convenient, with just a few underwriting questions to answer.

Remark:

6. 20% of the Sum Assured is equal to HKD200,000/USD25,000 (for Plan 1) or HKD400,000/USD50,000 (for Plan 2).
